

Danco Facilities Guide

Danco Anodizing – 44 La Porte Street, Arcadia, CA 91006 – Tel. 626-445-3303

The Arcadia facility has both Aluminum and Titanium Anodizing available. Our Dimad division provides polishing, graining, blasting and de-burring to achieve your desired mechanical finish. Other processes include ChemFilm, Passivation, and Electropolishing. Deep Image and Full Color Graphics available as well as laser marking, screen printing, and engraving.

NADCAP approved and RoHS compliant.

Danco Anodizing – 1750 Monticello Court, Ontario, CA 91761 – Tel. 909-923-0562

The Ontario facility provides the Inland Empire business community with Type II and Type III Aluminum Anodizing, ChemFilm, and Passivation of stainless steels. Dimad is co-located to provide finishing operations as described above. NADCAP approved and RoHS compliant.

Danco Anodizing – 501 W. Rowland, Santa Ana, CA 92707 – Tel. 714-557-2411

The Santa Ana facility provides hundreds of machine shops with rapid turnaround sulfuric and hard coat Aluminum Anodizing services, ChemFilm, and Passivation of stainless steels. As with the other plants, finishing and marking services are available. This facility also has liquid penetrant NDT inspection available. NADCAP approved and RoHS compliant.

Danco Medical – 2450 Deelyn Drive, Warsaw, IN 46580 – Tel. 574-269-5900

Majority owned by Lincotek Medical, this facility is a complete one stop provider to manufacturers in the Midwest and Eastern US with top quality Titanium and Aluminum Anodized coatings. ChemFilm, Electropolishing, and Passivation processes are also offered. Danco Medical provides Low Friction Chrome Coating (LFC) for medical instruments and Deep Image Graphics heavily utilized as a desired finish for medical cases and trays. Laser marking and HANano Coating is also offered. This plant is NADCAP, ISO 13485 and RoHS compliant. www.dancomed.com

Danco China – 16 Tianshan Road, Xinbei District, Jiangsu Province, Changzhou, PRC 213022 – Tel. +86-136-85269757

Owned by Lincotek Medical, the Changzhou plant expands Danco Medical's ability to support manufacturers globally, with an emphasis on the medical device industry, by offering Titanium Anodizing, Electropolish, and Passivation services. This plant is ISO 13485 and RoHS compliant.

Danco EN – 1745 Monticello Court, Ontario, CA 91761 – Tel. 909-923-0562

This state of the art facility provides plating services including electroless nickel, sulfamate or bright nickel, cadmium, chromate conversion, and clear/yellow/RoHS compliant zinc. Embrittlement relief and customer bake post processing available to complete plating requirements. Danco EN can be accessed through any of the California facilities.

Gemetec Coatings – 17892 Metzler Lane, Huntington Beach, CA 92647 – Tel. 714-848-2517

This facility complements the finishing capabilities of the California based plants. Powder coating is environmentally clean, superior to chemical, chip, impact and abrasion resistance and benefits for a great variety of color and textures. Liquid paint processes are available for commercial, aerospace, and military applications. Full Metal Imaging, a special purpose finish, is widely used in signage related industries.
